

Dear Skip, Mary & Elisa,

Being introduced to NEW LIFE was fate directed by a HIGHER POWER. Thanks to your organization we both emphatically agree that your guidance, education, love and intervention saved our children.

Due to NEW LIFE'S expertise and our newly learned "family relationship" skills, our teenage son has matured to where we now witness daily his enhanced personal and academic life. Next month he will be clean and sober ONE YEAR. Thank you New Life for teaching us how to get our son back.

No one could have told us six months ago that our pre-existing tenure with New Life was a God Send to help us weather an additional crisis. We discovered our college student daughter had an extremely serious drug addiction. New life guided us and our daughter to face this disease head on with a game plan that SAVED HER LIFE.

Thanks and God Bless for our NEW LIFE.

Joe & Mary Ann
